

Dual Rated Aluminum Pigtail Adaptor Connectors

Features:

- Manufactured from high strength aluminum alloy
- Pin is knurled
- Chamfered barrel
- UL Listed and CSA Certified for 600 volts, 90° C
- Clearly marked with wire size and die index for IlSCO tools, proper number and location of crimps
- Prefilled with De-Ox®
- End caps inserted in barrel
- Supplied with insulating cover

Benefits:

- Provides maximum conductivity and excellent crimping characteristics
- Permits greater surface contact
- Provides easy conductor insertion
- Ensures reliability for aluminum or copper conductors
- Provides easy identification and tooling recommendation
- Prevents oxides from forming
- Prevents foreign materials from entering the connector prior to installation
- Eliminates taping

ACO and ACO-90 Options:

- **ACO pin is off center:** Allows connectors to be rotated for parallel applications. Designed for use where multiple conductor lug hole spacing does NOT permit insertion of straight pin conductors.
- **ACO-90 pin is bent:** Eliminates the need to bend the conductor. Designed for use in tight applications where room for the required bending radius of the conductor is not available.
